The first Andrology Course of the Sociedad Española de Endocrinología y Nutrición was held on September 10-11 in Madrid, Spain. The course received the accreditation for the programme of Continuous Medical Education of Madrid (Agencia Lain Entralgo of Continuous Medical Education, Madrid) with 2.5 credits.

The course was attended by 65 endocrinologists (mostly) and urologists. Sponsorship was obtained from Eli Lilly, Bayer and Merck-Serono. The International Society of Andrology granted two young doctors under training programmes which were selected by the Organizing committee. Dr Mireia Mora, from the Hospital Clínico (Barcelona) and Dr Humberto Suarez Regardiz, from Fundació Puigvert (Barcelona) were awarded with travel grants (1,000 USD) for attending the Course.

The evaluation questionnaire among attendees indicated a high degree of satisfaction with the programme content, faculty and logistics facilities. (global average 4.8/5)

Also the President, who attended the second of the Course and close it, and the Board of the Sociedad Española de Endocrinología were very much satisfied with the overall results and atmosphere generated among participants, and as a consequence a second course will be scheduled in two years ahead.
