

Welcome message ISA TREASURER

Andrea M. Isidori, MD, PhD

Dr. Isidori is Associate Professor of Endocrinology and Reproductive Medicine at the Sapienza University of Rome - one of the largest University Hospital in Italy, in an accredited centre by the European Academy of Andrology. Since 1999, he has been carrying out translational research in Andrology and endocrinology merging basic and clinical approaches. Dr. Isidori has investigated different areas of Andrology ranging from sexual medicine, in particular the cardiovascular effects of phosphodiesterase inhibitors, to the patho-physiology of testosterone therapy. Lately he has focused on novel approach to the early diagnosis of testicular tumors. He has been elected member of the executive committee of the Italian Society of Andrology and Sexual Medicine and member of the Executive Committee of the European Academy of Andrology since 2014. Dr. Isidori has also been a member of the International Consultation of Sexual Medicine (ISSM 2015). He received the Young Andrologist Award from ISA in 2013 in Melbourne and the early career award from the Italian Society of Endocrinology in 2015. He is currently Associate Editor of the European Journal of Endocrinology (Bioscientifica) and Endocrine (Springer Nature).

"... I believe in the importance of dissemination of knowledge, the value of translational research -from bench to bedside- and the promotion of a multidimensional Andrology addressing fertility, sexual medicine, endocrinology, and oncology. Along with the new elected officers, I will dedicate myself to ISA mission of bringing Andrology to the highest standard and the largest number of people worldwide. To begin with, I will inform current and future members of ISA on the several advantages of being part of the largest international organization devoted to Andrology: grants for young researches, support for local meetings, exchange in knowledge, participation to the upcoming large meeting in Munster, developing basis for international collaborations and opportunity to run for the ISA awards. I look forward to see the active participation of affiliated Societies to the worldwide family of Andrology! ..."
