- 

This text provides a comprehensive resource and step-by-step guide to the office based procedures that would commonly occur in an andrology practice. The main purpose of the text is to serve as a “How-to” guide for urology providers and staff to help with either initial training or as a refresher prior to performing the procedures. Written by experts in the field, each chapter begins with information on necessary equipment and shows a series of images (photos and illustrations) on key points during the procedure, including tips and tricks of the trade.

*Atlas of Office Based Andrology Procedures* provides a valuable resource for urologists, nurse practitioners, and physician assistants in practice, residents and fellows in urological training, as well as nurses and medical assistants who help with these procedures.
